

The City of Oak Ridge Youth Advisory Board is sponsoring a Global Gear Drive to support the National Alliance for Youth Sports. Everyone is encouraged to donate new or used baseball, basketball, and soccer equipment that will be distributed to communities around the world. Acceptable items include uniforms, protective equipment, balls, and other sports equipment that are new or that still have a few seasons left in them. Millions of children around the world never get the opportunity to take part in a quality sports program and reap the many physical and emotional benefits that participation provides. Your support can help to make those benefits possible and will help to rid your home of unused equipment. Donations are now being accepted at the Front Desk of the Civic Center until December 30th, 2008. If you have questions about this event, or other City of Oak Ridge Youth Advisory Board programs, please contact Matt Reedy at 425-3450 or visit www.orrecparks.org.
